		25 <b>X</b> 1
9.	Troop trains which passed through Dresden-Friedrichstadt on 11 and 16 October included a train of 56 B which came from Weimar and went toward Dresden-Neustadt on 11 October; and another train of 3 B with soldiers and an undetermined number of F with 15 JS-1 tanks and 12 trucks which came from the direction of Schwepnitz and proceeded toward Grimma. 5	20,
1.	Comment. Previous reports led to the assumption that the army artillery brigades which were absent from the Altenburg post on 22 September 1954 participated in major fall maneuvers of the Eighth Gds	25X <sup>2</sup>
	Army. There were, however, no sufficient indications that a maneuver was held at army-level. According to the present report, elements of the two brigades probably moved to	25X′
	Ohrdruf, possibly for firing practices, on 17 and 13 September 1954.  Another report indicates that these units returned to Altenburg prior to 25 September 1954.  On 25 September 1954, elements of the two brigades departed again on three troop	25X1
	trains. On 1 October 1954, the units returned to Altenburg.	
2.	Comment. The troop trains probably carried contingents of the 76th Arty Erig to Ohrdruf for firing practice.	25X1
3.	Comment. The troop trains probably carried tank units of the 21st Gds Mecz Div. The units either went to tank firing practices	25X <sup>2</sup>
	or participated in the fall maneuvers of the division.	25X <sup>2</sup>
4.	.Comment. The troop trains probably carried tank firing details	25X <sup>2</sup>
	of the 9th Mecz Div. the JS tanks are assigned to the 80th Gds Hv Tk SP Regt at Drachhausen (330%).	25X′
5.	Comment. The troop trains probably belonged to the return	25X2
	movement of the 8th Gds Mecz Div.	25X1
5.	Comment. The vehicle indicate that the 2d Light Arty	25X1
	Brig returned from the maneuver of the 12th Gds Tk Div.	25 <b>X</b> ′
		25 <b>X</b> ′
7.	Comment. The troop trains probably carried components of the 31st AAA Div which also returned from the maneuver of the 12th Gds	25 <b>X</b> ′
	Tk Div.	25 <b>X</b> 1
8.	Comment. The shipment-record	25 <b>X</b> <sup>2</sup>
	for the first time, Previous reports which	25 <b>X</b>
	were used for troop shipments to the USSR are not sufficient proof that the trains in the present report actually carried troops.	25 <b>Y</b>
	The distance between the various crossing	25X₁ ∠5X
	stations does not support such an assumption.
